WENGLER  
CHÂTEAUX 18 ✕ 97 DOMAINES

Our mission is straightforward, to celebrate the best of wine and spirits culture, selling products reflecting terroir and artisanal craftsmanship.

*Notre mission est simple, célébrer le meilleur de la culture du vin et des spiritueux, en vendant des produits qui reflètent le terroir et l'artisanat.*

[EN] PLEASE HANDLE YOUR NATURAL WINES WITH CARE! They are highly sensitive to temperature and light and should be stored in a cool and dark area at 1.1 - 1.4 °C. Please note that we will not replace any natural wine bottles due to deterioration.

[FR] VEUILLEZ PRENDRE SOIN DE VOS VINS NATURELS! Ils sont très sensibles à la température et à la lumière et doivent être conservés dans un endroit frais et à l'abri de la lumière, à une température comprise entre 1.1 - 1.4 °C. Veuillez noter que nous ne remplacerons pas les bouteilles de vin naturel détériorées.

THE MINDFUL WINE  
PHILOSOPHIES

*LES PHILOSOPHIES  
DU VIN CONSCIENT*

## Organic

Organic wines are made from grapes grown without any synthetic chemicals (fertilizers, pesticides, GMOs, herbicides...). The viticulture is dedicated to maintain and develop the ecosystem of the vineyard and the terroir. Since 2012, the winemaking process is also controlled with the limitation of technological processes and inputs that are used. Labeling according to European rules.

Limitation of total SO<sub>2</sub>  
Red 100 mg/L - White 150 mg/L  
(Value according to the European rules)

## Biologique

*Les vins biologiques sont issus de raisins excluant toute utilisation de produits chimiques synthétiques (engrais, pesticides, OGM, herbicides...). La viticulture se consacre à maintenir et à développer l'écosystème du vignoble et du terroir. Depuis 2012, la vinification est également contrôlée avec la limitation des utilisations technologiques et des intrants autorisés. Labélisation suivant les règles européennes.*

*Limitation du SO<sub>2</sub> total  
Rouge 100 mg/L - Blanc 150 mg/L  
(Valeur selon les règles européennes)*

## Biodynamic

Biodynamic wines are made using practices and methods that go beyond organic rules. The viticulture is based on a deep reflection of the place of the vine around the components of the environment. It focuses on the astral and lunar cycles, the development of organism, magnetism, dynamization (spraying of plant and mineral preparations). The goal is to produce quality and perfectly healthy grapes to limit manipulation in the cellar and to faithfully express the terroir. The amount of technological process and inputs used, are significantly reduced. Controlled and certified by organizations.

Limitation of total SO<sub>2</sub>  
Red 70 mg/L - White 90 mg/L  
(Value according to the labeling organization)

## Biodynamique

*Les vins biodynamiques sont élaborés à partir de pratiques et méthodes qui dépassent le cadre biologique. La viticulture se base sur une profonde réflexion de la place de la vigne autour des composants du milieu. Elle se concentre sur les cycles astraux et lunaires, le développement d'organismes, le magnétisme, la dynamisation (pulvérisation de préparations de plantes et de minéraux). Le but étant de produire des raisins de qualité parfaitement sain pour limiter les manipulations en cave et exprimer fidèlement le terroir. L'utilisation d'intrants et de procédés physiques sont nettement réduits. Contrôlé et certifié par des organismes.*

*Limitation du SO<sub>2</sub> total  
Rouge 70 mg/L - Blanc 90 mg/L  
(Valeur selon l'organisme de labellisation)*

## Low Intervention

The consensus for natural wine corresponds to a viticulture that follows the organic and biodynamic rules. A low-intervention is the principle in the cellar. Physical processes are reduced to a strict minimum, no inputs are allowed except for a homeopathic dose of sulfur, usually at bottling (30 mg/L total SO<sub>2</sub>). The result is lively, free and unique wines. Despite the significant risks of production loss, these winemakers have chosen to always follow their values. The denomination "natural" is not recognized by European legislation. It does not follow any legal standard.

Limitation of total SO<sub>2</sub>  
more or less 30 mg/L  
(Not recognized by European legislation)

## Faible Intervention

*Le consensus pour le vin nature correspond à une viticulture qui suit les fondements biologiques et biodynamiques. Dans la cave, le principe est la non-intervention. Les procédés physiques sont réduits au strict minimum, aucun intrant n'est autorisé à l'exception d'une dose homéopathique de soufre généralement à la mise en bouteille (30 mg/L de SO<sub>2</sub> total). Il en résulte des vins vivants, libres et uniques. Malgré les risques importants de perte de production, ces vignerons ont fait le choix de toujours suivre leurs valeurs. Le terme "nature" n'est pas reconnu par la législation européenne. Il ne suit donc aucune norme légale.*

*Limitation du SO<sub>2</sub> total  
plus ou moins 30 mg/L  
(Non reconnu par la législation européenne)*

Rarity leads to a high demand for many estates. We apply an allocation system (annual and unique allocation) in order to satisfy the expectations of passionate and faithful wine lovers.

*La rareté entraîne une forte demande pour de nombreux domaines. Nous pratiquons un système d'allocation, (attribution annuelle et unique) afin de pouvoir répondre aux attentes des amateurs passionnés et fidèles.*

---

## How to get access to an allocation ?

- Be a resident of Luxembourg
- Send your request to: [info@wengler.lu](mailto:info@wengler.lu)
- Establish a long-term relationship of mutual confidence

## *Comment devenir allocataire ?*

- *Être résident Luxembourgeois*
- *Envoyez votre demande à: [info@wengler.lu](mailto:info@wengler.lu)*
- *Etablir une relation de confiance sur le long terme*

NATURE ISN'T MEANT TO BE CALM

IT HAS ITS OWN DESIGN  
THAT FORGES CHARACTER  
AND THAT'S WHAT WE SEEK

THROUGH BORDERS AND TERROIRS,  
WE CHASE THAT FEELING, THAT  
EXPERIENCE THAT BREWS IN THE  
WILD...

WIND, AIR, SOIL ... ALCHEMY  
AND WHEN WE FIND A REAL LIFE  
TREASURE, WE BRING IT HOME

WE ARE THE CURATOR
